

Preliminary Amendment

National Stage Entry of PCT/JP02/11993

Attorney Docket No.: Q86307

AMENDMENTS TO THE SPECIFICATION

Please replace the third paragraph on page 2 with the following amended paragraph:

There is disclosed a conventional technique in which setup data is transferred to the network-connected equipment having no user interface from the server on the network by using the TFTP to perform setup (see, for example, ~~Patent Literature 1~~Japanese Patent Application Laid-Open No. 2000-165407).

Please replace the first paragraph on page 4 with the following amended paragraph:

The present invention has been achieved in order to solve the above problems in the conventional technique. It is an object of the present invention to provide a network data-transfer method that can easily transfer data from the server on the network to the network-connected equipment having no user interface so as to perform processing, and particularly, that can easily transfer data to the network-connected equipment having no user interface, so as to perform processing, even when a firewall is set up.

~~(Patent Literature 1)~~
